January 16, 2006

Knox County 911  
Attn: Pat Clouse  
PO Box 173  
Barbourville, KY 40906

Subject: Letter of Concurrence for Shared Use of Frequencies.

Mr. Clouse

I understand that your organization seeks the use of this frequency or frequencies that we currently hold authorization for in callsign (KNNN521), and that your frequency coordinator has requested a Letter of Concurrence from us, in order to continue your license application.

We understand that the use of frequencies in this pool is subject to shared use, and give our approval for your projected use of these frequencies: 453.075 & 458.075.

We understand that all licensees must work to control any harmful interference, and that all licenses are subject to the reduction in their station parameters, or even the deletion of the authorization if it is in the best interest of all licensees.

Sincerely,

  
Charles David Hawk
